OAKLAND, CALIFORNIA
AGAIN WE express greetings to our Dahlia friends, old and new, in presenting our 1937 Dahlia catalog. You will find listed here only late American and Foreign introductions and standard varieties of real merit. We do not include all new introductions, but only such varieties that have been selected for their superiority in color, perfection of form, length and stiffness of stem, continuous blooming and keeping qualities.

OUR STOCK consists of the highest quality field and pot-grown Dahlia roots. They are fully guaranteed true to name and to arrive in good growing condition. With reasonable care they will produce for the grower a large quantity of high-class flowers.

ROOTS AND GREEN PLANTS will give equally good results, if plants are given immediate care upon arrival. Our plants are all base cuttings; strong, hardy lath-house grown stock. Packed by experts in ventilated containers, the plants travel safely on a six-day trip.

WE SUPPLY roots after January 1; plants from May 1 to September. For terms of sale and guarantee, see last page.
